INTRODUCTION:

We are blessed to have the past work of Dr. Sebi, Tony Issacs, myself and many more who have contributed to this very thorough training course.

I am the owner and teacher of Mucusless Diet Center and the [Face Book Group](#) and YouTube channel, all of the same name.

The teachings of Dr. Sebi saved my life and through the mercy of Allah I am here to teach you more. I tried to share my story on an Alkaline Recipe Group and they refused my testimony and so I ventured to my own group of more than 6000 now and my channel with 33,000 followers.

FOLLOW ME ON YOUTUBE

I decided to venture to YouTube but of course I knew if 100 people followed me that I would be blessed. Within 1 month we have more than 1000 subscribers. That was 4 years ago.

I made my name by teaching people how to make the Dr. Sebi products at home and here in this cancer eBook we will share that knowledge. Not only how to make the products, share my cancer knowledge and testimonies of people who cured their cancer the Dr. Sebi Way, but give you hope and guidance.

Dr. Sebi was the king, the teacher and he deserves the love.

**THIS IS AN EDUCATIONAL STUDY FOR ANYONE WITH
CANCER OR WHO KNOWS ANYONE WITH CANCER.**

WHO WAS DR. SEBI

Alfredo D. Bowman (1933-2016), famously known as Dr. Sebi, was born in the village of Ilanga in Spanish Honduras, unpredictably cured hundreds of people with serious diseases

and demonstrated in the U.S. courts too that his methods are 100% natural and effective.

He always endorsed himself as a self-taught teacher/brother, vegetarian herbalist, pathologist, biochemist, and neutralist of herbal medicine. As he gained popularity in local communities, he came to the U.S. on a mission to heal humanity. From Aids to Cancer, Diabetes to Epilepsy, he healed numerous ailments and reversed them entirely, and had risen to more fame in the 1980s.

Dr. Sebi receives nationwide fame when ran different advertisements in newspapers, like the New York Post and claimed that he has cured AIDS. These ads got a lot of attention and compelled the Food and Drug Administration (FDA) to sue him for bogus advertisements and practicing without a legal license. It was a man vs. the FDA, but in the court he was able to prove this case with more than 70 patients supporting his claims.

He was so committed to his work and had so much success that he took on the Attorney General of New York in Supreme Court trial and had brilliant victory; the judge declared him not guilty and valid on all counts.

When we investigate Dr. Sebi's life, we realize that the struggle for finding cures began in his early life at the foot of his beloved grandmother, 'Mama Hay'; his early days of play and remarkable study by the river and forest, coupled with guidance from his grandmother, pushed him to be obedient to the truth in his later life. Unlike other renowned physicians, he used his healing methods to treat his own ailments like asthma, diabetes, impotency, and obesity, with the help of traditional herbalist in Mexico.

Once he cured himself completely from all ailments, he created a line of cell food compounds, used for inter-cellular sanitization and cellular recovery of all the cells that make up the human body, to clear the body of excessive mucus, which was according to him is the key root of all diseases.

Before sharing his deep understanding of healing, traditional herbal, and traditional compounds, Dr. Sebi spent decades in studying different aspects of healing and gave birth to the professional USHA Research Institute & USHA Healing Village in La Ceiba, Honduras.

The Overall Concept of the Dr. Sebi Diet

The overall concept of Dr. Sebi's Diet is indeed based on the 'Alkaline Diet', which is immensely popular these days, since it is also known as the key to longevity and fighting chronic diseases. In his alkaline diet, the main theory is all about foods.

He explained through his studies that some foods cause our body to produce acid, which is bad for our health and invite numerous illnesses. On the other hand, when we consume specific foods and make our body more alkaline, in a way, we shield it against chronic diseases and turn it into a healing object.

For example, foods like meat, poultry, refined sugar, cheese, and grains produce acids in our body and make it vulnerable. When we avoid these acid producing foods, we not only prevent diseases, but also reverse them effectively.

THE MYSTERIOUS DEATH OF DR. SEBI

Since, the moment Dr. Sebi started curing AIDS and major chronic diseases and won the case in the Supreme Court, he

became a risk to the pharmaceutical industry. He encountered countless issues and allegations and was a victim of death threats.

The final journey for our beloved Dr. Sebi began in May 2016. He was arrested at Juan Manuel Galvez International Airport in Honduras. The trumped-up charges against him from the police claimed he was transporting the funds illegally. The \$37,000 was used for Dr. Sebi to start again and create a new clinic, but the police would tell other stories.

He was released without charge temporarily while the police would watch him to see what he would do. When Dr. Sebi did nothing, they rearrested him on June 3rd, 2016, and charged him with money laundering again. Sadly, he remained in custody until August 6, when he was rushed to a local hospital, reportedly suffering from pneumonia and died.

The Dr. Sebi community was in shock and immediately rumors of murder surfaced. Everyone felt there was a major plot against Dr. Sebi to steal his business. There was never an autopsy done of Dr. Sebi's body and he was merely laid to rest.

Questions were asked why no one informed his followers that he was even in jail? Why did his 26 children, wife, family members not come forward to help this man and how could a man so healthy he could fall on his knees die of pneumonia. There was one man who knew of Dr. Sebi's condition and that man was his best friend Mel Watkins.

Mr. Mel Watkins, went and saw him in the dirty, overcrowded, corrupt Honduran prison where Dr. Sebi stayed for months. Dr. Watkins met his friend in quite good and decent health, just days

before his death. He reveals that, there was dirty water and moisture on the floor in the cell of Dr. Sebi, which is perhaps the reason of his sickness and pneumonia attack. He also saw the food Dr. Sebi was given was not fit for dogs to eat.

Even at that time, Dr. Watkins felt that Dr. Sebi was strong enough to finish his time there. He also brought some Dr. Sebi's herbal formulas to the jail to treat the pneumonia condition, but he is not sure whether they ever got to him.

A great teacher has passed to a better place, but opened the floodgates of abundance for us through his knowledge. His legacy and vision will live on through us all. The paid media and medical industry which are banking on our sickness cannot shut us down; they cannot silence us. All we need is to understand the propaganda and the reasons behind Dr. Sebi death.

Since in this crazy world, men with power are consistently attempting to diminish the success of this one man; it is their aim to make us sick, depressed and poor. They were afraid of Dr. Sebi as he was trying to explain to the world how to maintain our health naturally. We have to continue his mission and give him the respect he deserves.
